

# Deploy from template Dc win 2019-

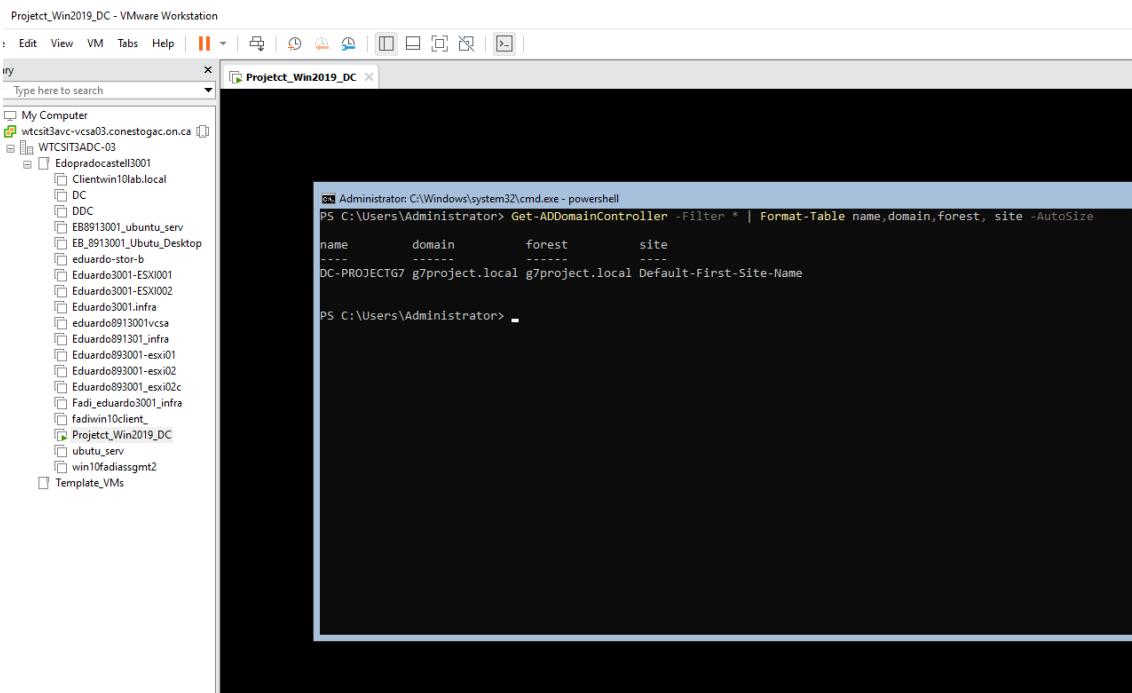

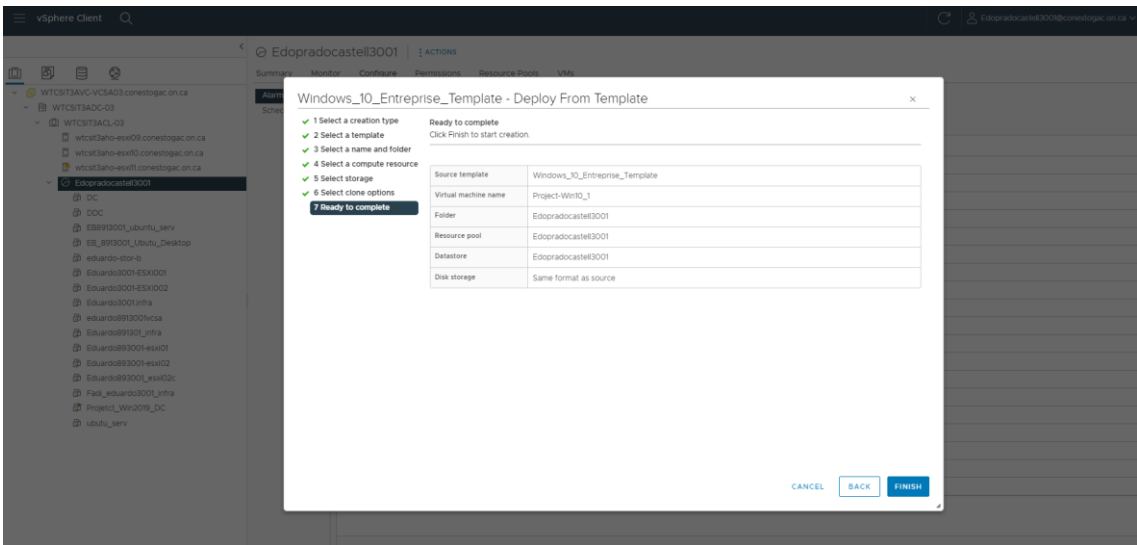

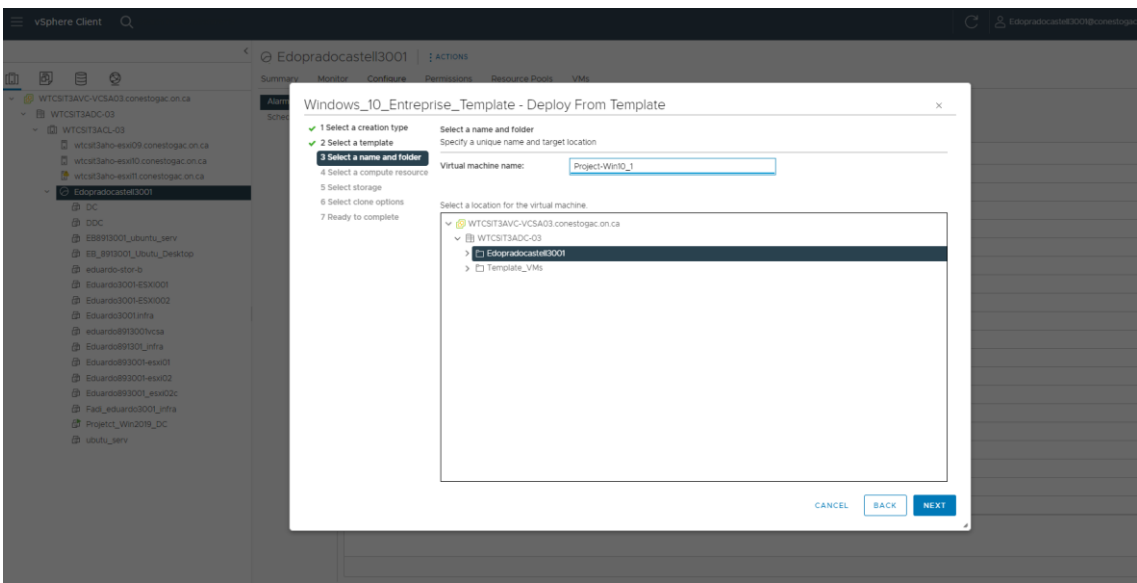

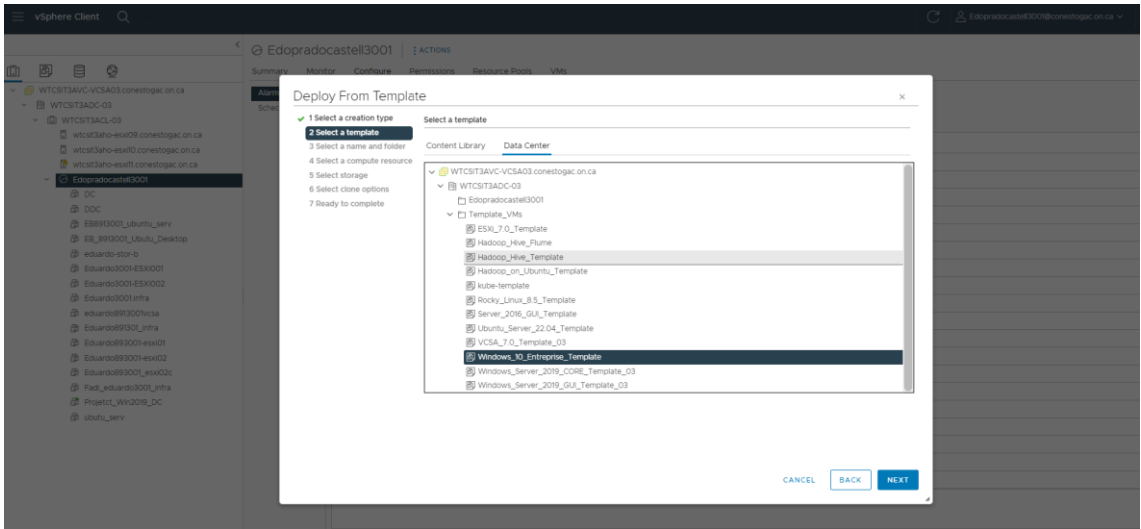

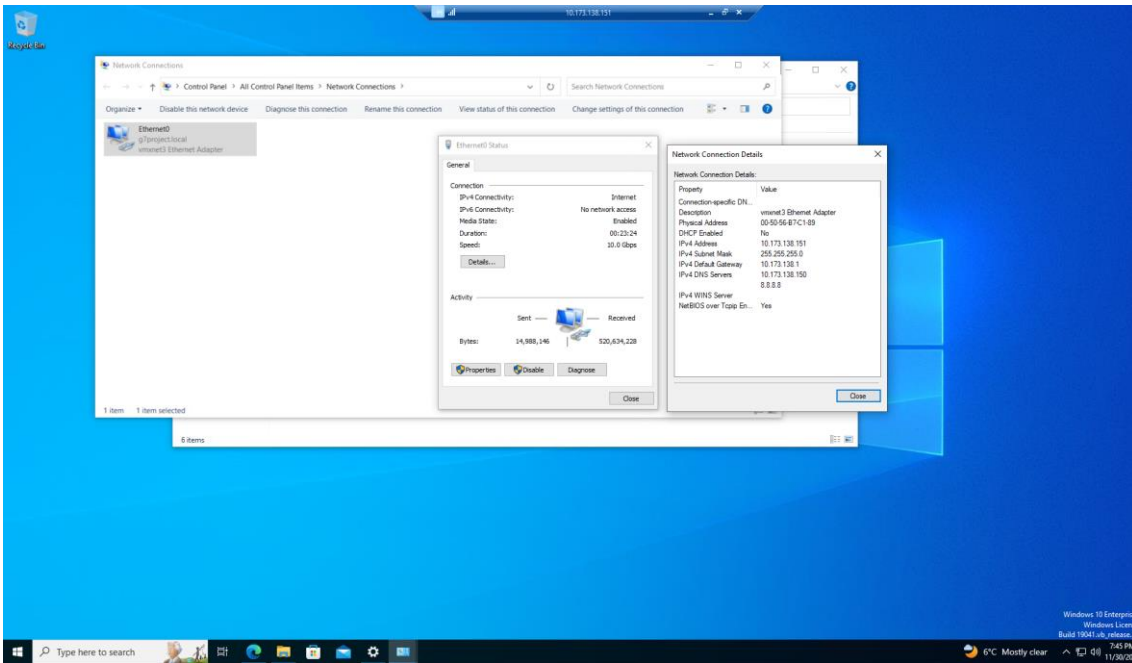

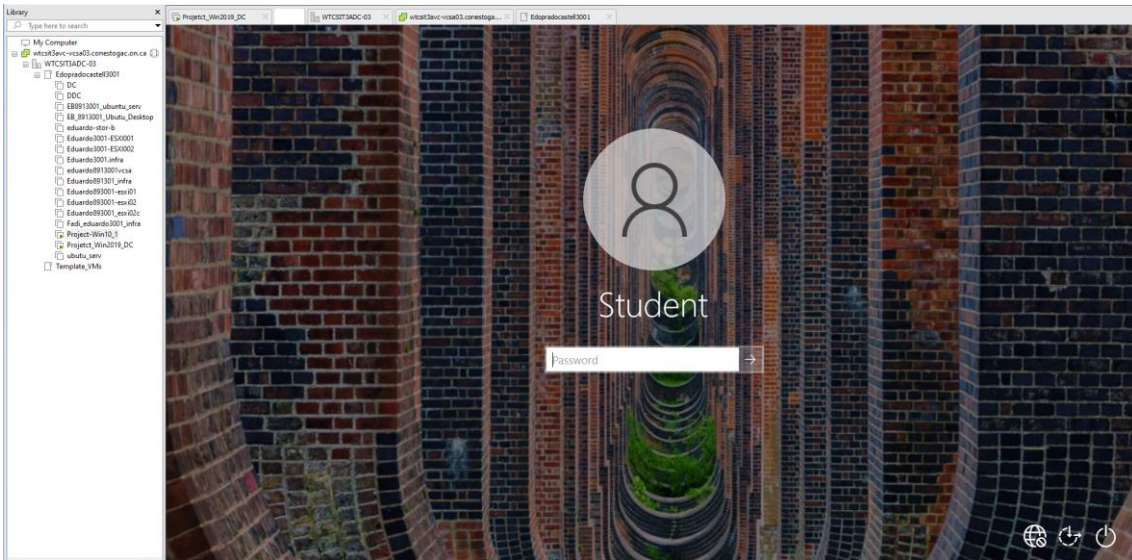

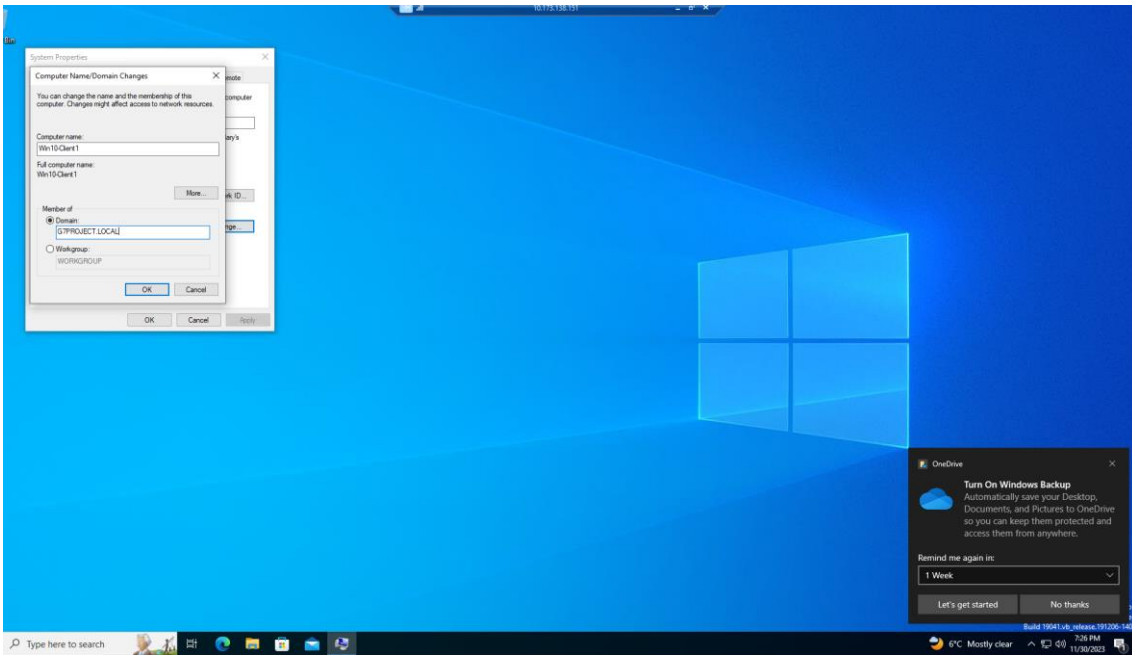

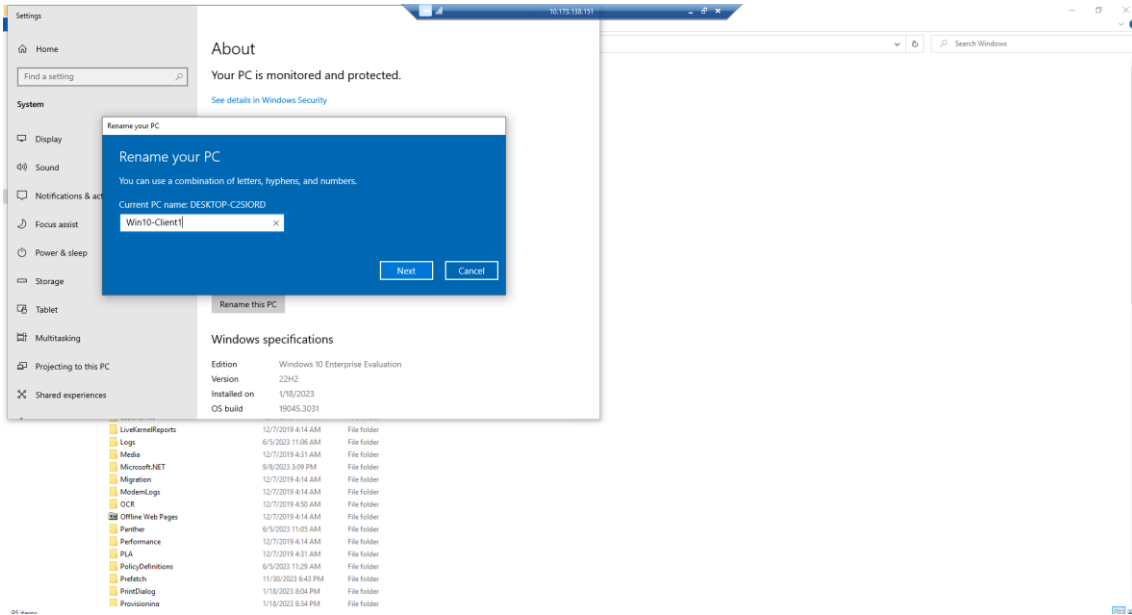

1- Win10

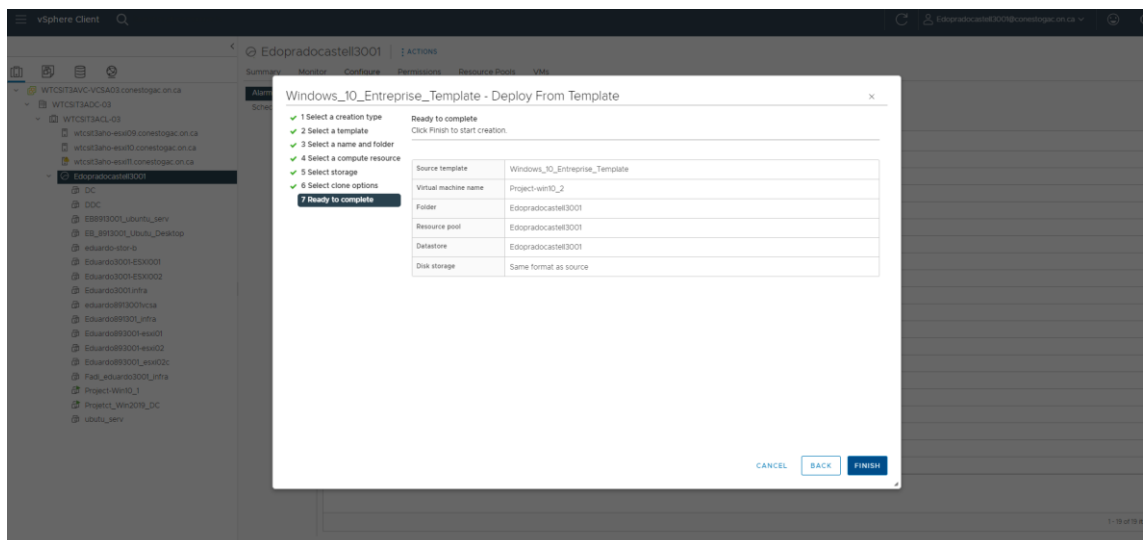

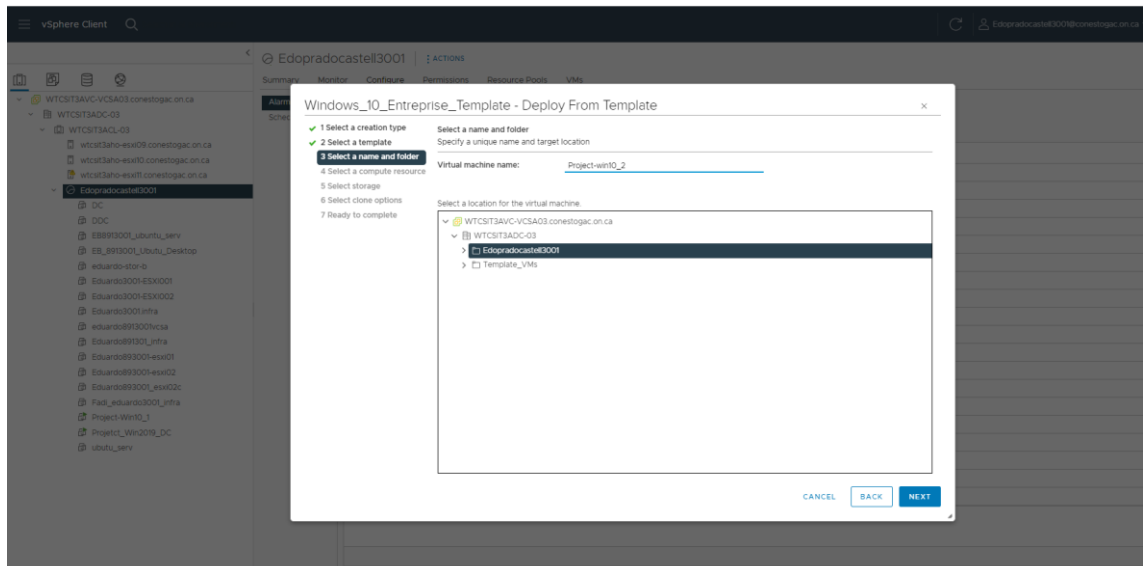

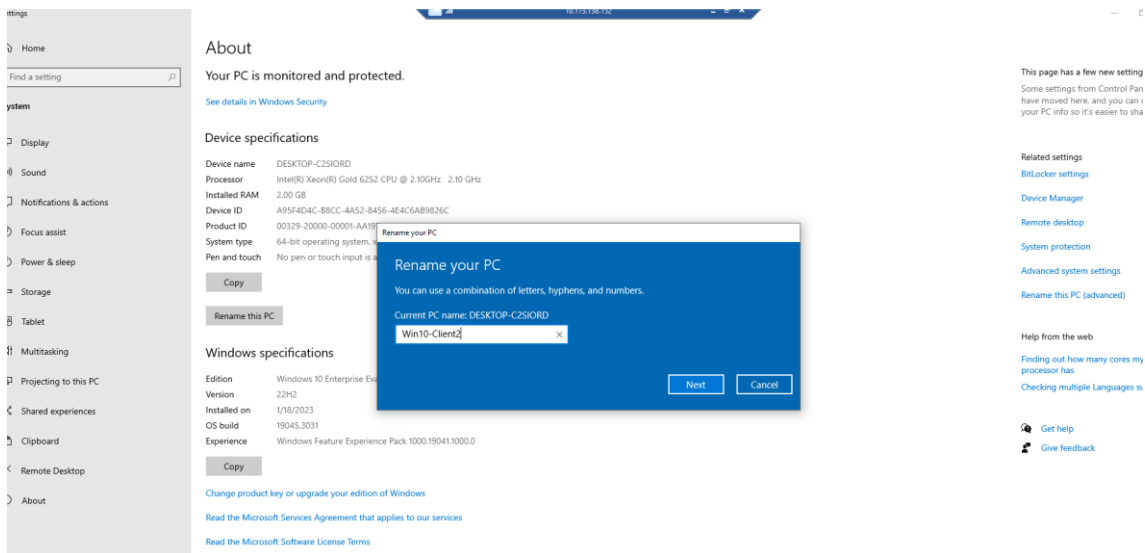

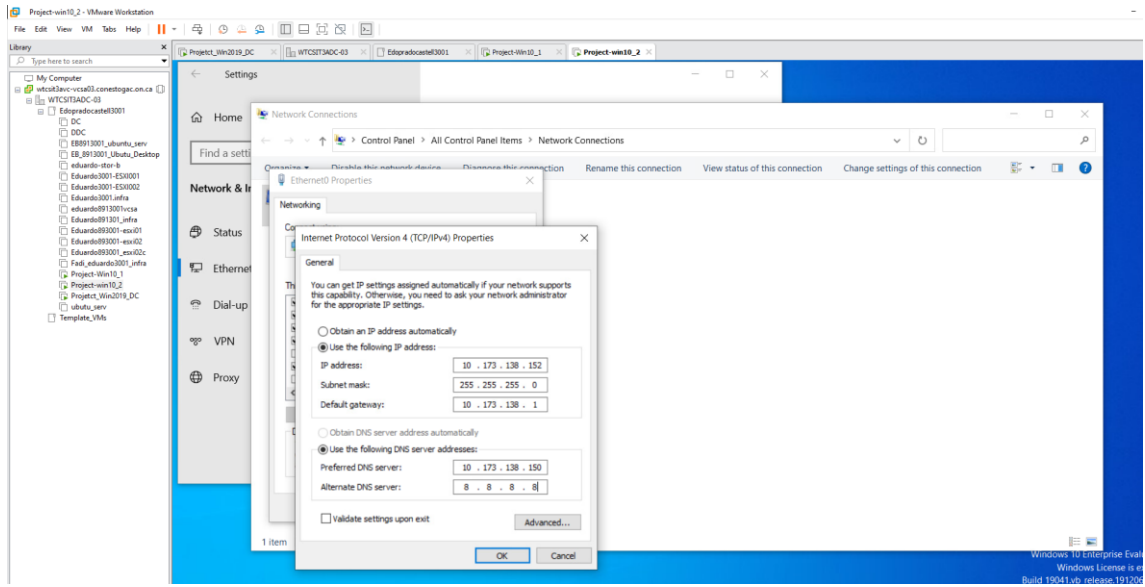

## 2- Win10-client

Settings

g7project.local

Metered connection

If you have a limited data plan and want more control over data usage, make this connection a metered network. Some apps might work differently to reduce data usage when you're connected to this network.

Set as metered connection

Off

If you set a data limit, Windows will set the metered connection setting for you to help you stay under your limit.

[Set a data limit to help control data usage on this network.](#)

IP settings

IP assignment: Manual  
 IPv4 address: 10.173.138.152  
 IPv4 subnet prefix length: 24
